EG4® 14.3kWh PowerPro WallMount All Weather Battery

Built-In 200A BMS	51.2V 280Ah (48V Nominal)	10 Year Warranty >8000 Cycles at 80% DOD	82.6MWh Lifetime Production*

On-Board LCD Touch Screen

Easy to see BMS monitoring, and selectable closed-loop communications with EG4, Schneider, Solark, Victron, Growatt, Megarevo, Luxpower, and Deye inverters.

Dual On-Board Fire Arrestors

Offer fail-safe protection against thermal runaway.

Quick Connect Battery Cables

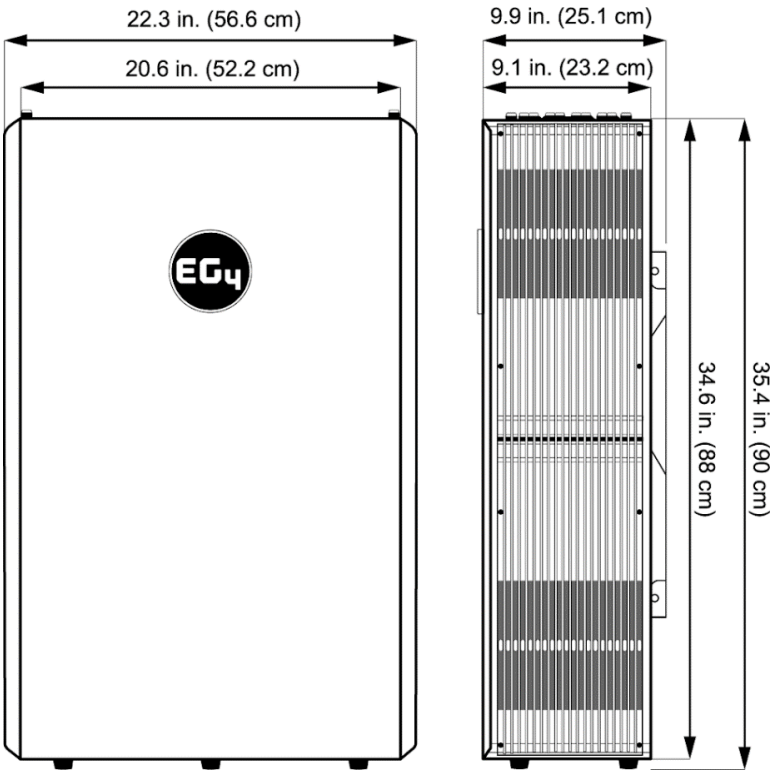
Included battery cables with outdoor rated connectors allowing for fast, safe, and reliable battery connections.

Integrated Self-Heating Feature

Heats the battery when the ambient temperature is low. A key feature for outdoor $LiFePO_4$ battery cell operation.

Innovative Emergency Stop Function

The optional ESS disconnect can shut down all batteries and inverters (if equipped with rapid shut down capability) with the push of a single button.



The perfect partner to the EG4® 18kPV

The optional conduit box mates directly up to the connection ports of the 18kPV inverter cable box for sleek installation. For other inverters or stand-alone battery installation, the conduit box plugs included with the conduit box should be installed.

✱*Note: The default BMS in the module allows for 100A charging current maximum. To achieve higher charging currents, please contact your distributor for optional firmware files, or navigate to https://eg4electronics.com/downloads/ for the most up to date firmware.*

Please also make note that if the battery firmware is updated to allow 200A maximum charge, the internal thermal sensors will throttle the charge current to what the BMS deems necessary to prevent overheating.
