

To Whom It May Concern,

This letter is to certify that the following EG4 Inverters have been programmed to limit the total Grid-Sell output to the specified value, confirm that Export is in place, or request to modify or remove Limited Export.

This setting is set, monitored, and controlled by EG4 with the installer and end-user unable to change this value both remotely and locally once it is set. Neither the installer nor the end-user will have knowledge of the password.

Changes to these settings will only be made upon authorization in writing from the jurisdiction requiring this setting - either the utility or the permitting Authority Having Jurisdiction (AHJ).

Requests to modify or remove these settings locks should be made below. Please check the box that applies to your request, and if the request is for Limited Export or Request to modify Limited Export, please include the change in Grid-Sell Back Wattage Limit and check the appropriate box.

Any other requests should be made to the program administrator - see contact information below.

- Request for Limited Export
- Request to modify Limited Export
- Request to remove Limited Export
- Confirmation that Export is in place

| EG4 Inverter Model Number | Inverter Serial Number | Grid-Sell Back Wattage Limit |
|---------------------------|------------------------|------------------------------|
|                           |                        |                              |
|                           |                        |                              |
|                           |                        |                              |
|                           |                        |                              |
|                           |                        |                              |
|                           |                        |                              |
|                           |                        |                              |
|                           |                        |                              |
|                           |                        |                              |
|                           |                        |                              |
|                           |                        |                              |
