

California Proposition 65 Warning

California's Safe Drinking Water and Toxic Enforcement Act of 1986, also known as California Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals known to cause cancer, birth defects, or other reproductive harm. The law aims to help consumers make informed decisions about protecting themselves from these chemicals.

As a company that produces solar products that may be purchased by consumers in California, we have chosen to issue the warning on all EG4 Electronics products as an act of caution for our customers because some of the products we sell may contain chemicals known to the State of California to cause cancer, birth defects and/or reproductive harm.
