51.2V 100Ah EG4-LL S / EG4-LL V2 RS-232 Changelog

Software Version	Change Content	Change Time
S02T24	Corrected the Cycle count logic to: Cumulative discharge 80% (80Ah) = +1 Cycle Count	04-14-2025
S02T34	Optimized the SOC% algorithm to follow total cell-pack voltage while idle to correctly track the SOC when a parasitic draw (under 0.5A) occurs.	11-24-2025
